Shubha Kumar
Associate Professor (University of Southern
California); Founder & CEO (Global SROI)

PLEASE INTRODUCE YOURSELF AND YOUR WORK.

I'm a US-based social impact professional and professor with 15+ years of experience in advancing social impact across various industries, including humanitarian assistance, international development, global health, and higher education. I was one of the first scholars worldwide to do a PhD in social return on investment (SROI) and founded Global SROI.

WHY DOES SOCIAL VALUE MATTER TO YOU?

Social value is at the core of what I do. I love doing strategic planning, impact evaluation, and capacity-building work to maximize positive impacts for people and the planet. I try to work and live by the principle, “be the change you wish to see in the world.”

WHY DID YOU DECIDE TO JOIN SVI?

I joined SVI/the SV US Member Network for the fantastic opportunity it provides to learn about accounting for and growing social value, including key resources and trainings, and to meet like-minded professionals from around the country and the world interested in making a difference.

HOW HAS SVI MEMBERSHIP BEEN OF VALUE TO YOU?

SVI and SV US membership have been incredibly valuable to me in guiding my development and career as a social impact professional. I have learned so much from the trainings, case studies, and other resources that apply in my everyday work, and great collaborators to work with across the globe.
